SUBJECT: RESOURCE ALLOCATION REVIEW, FEBRUARY 13, 2007

The Interplanetary Network Customer Forum (INCF) will be held February 13, 2007 and will include a Deep Space Network (DSN) Resource Allocation Review. The Review will cover usage of the DSN antenna subnets for July 2007 through December 2009. This Review will commence on November 20, 2006 and conclude on February 13, 2007. During this process, the Resource Allocation Planning Service (RAPS) members will accept major changes to the users' requirements or tracking requests only if they are submitted in the form of draft changes to the Project Service Level Agreement (PSLA)/Deep Space Mission System Service Agreement (DSA). These draft changes should be initialed by the appropriate Project Manager as this procedure supports our requirement traceability process.

Please review all attached material (Attachments 1-6). On Attachments 5 and 6 (ULP's and Events), update any items requiring change. Please send changes via email to the following Resource Analysis Team members:

Return a signed copy of the User Loading Profiles and Major Events forms (Attachments 5 and 6) to the Resource Analysis Team, **Mail Stop 1400-300**, or **FAX to: (626) 305-6389**. We must receive all Review Material ***on or before November 7, 2006.***

Any new or updated viewperiods required to support new or revised project/user requirements, should be delivered to Service Preparation Subsystem (SPS) or the RAPS File Exchange Server ***on or before November 7, 2006.*** Files should be delivered in SPK transfer format with a date range from at least 2007 through 2009. We would prefer from 2007 to the end of mission or extended mission. For assistance in uploading to RAPS File Exchange Server please contact [Arthur.E.Andujo@jpl.nasa.gov](mailto:Arthur.E.Andujo@jpl.nasa.gov).

Beginning the week of November 20, 2006, the Resource Analysis Team members will begin contacting appropriate Project/User representatives, as necessary, to review the preliminary recommendations posted to the RAPWEB on January 23, 2007.

Thank you for your help and cooperation in assuring that the next Resource Allocation Review will result in decisions providing everyone the maximum amount of support possible.

**Attachment 1:** A schedule for distribution, evaluation, and negotiation of each user's requirements in preparation of the scheduled review. It is important that this schedule be followed as closely as possible. Your cooperation is greatly appreciated.

**Attachment 2:** The User/Mission Planning Set must be obtained from the RAPWEB at: <http://rapweb.jpl.nasa.gov/planningmissions.html>. Data in this mission set was obtained from each Project and user. Please review this material for accuracy and completeness and provide updates as necessary.

**Attachment 3:** The DSN Antenna Implementation Planning Matrix must be obtained from the RAPWEB at: <http://rapweb.jpl.nasa.gov/planning.html>. The dates on these schedules are *best estimates* at this time.

**Attachment 4:** The latest DSN Major Downtime Schedule must be obtained from the RAPWEB at: <http://rapweb.jpl.nasa.gov/downtime.html>. The dates on these schedules are *best estimates* at this time.

**Attachment 5:** The individual Project or User Loading Profile (ULP) must be obtained from the RAPWEB at: <http://rapweb.jpl.nasa.gov/reqs.html> using either PDF or XLS format. The ULP's contain our latest interpretation of the user requirements and must be reviewed in detail by each user of DSN antenna resources. Please provide redlines on the ULP forms provided and do not reformat the information, as changes to the form would cause us to reinterpret each and every requirement, which is a very time-consuming process. Your cooperation will be greatly appreciated. Please sign the ULP form in the upper right-hand corner and return it even if there are no changes.

**Attachment 6:** The individual Project or User Major Events must be obtained from the RAPWEB at: <http://rapweb.jpl.nasa.gov/reqs.html> using either the PDF or XLS format. The Major Events contain our latest interpretation of the user's upcoming major events and must be reviewed in detail by each user of DSN antenna resources. Please provide redlines on the sheets provided and do not reformat the Major Events form, as changes to the form would cause us to reinterpret each and every major event, which is a very time-consuming process. Your cooperation is appreciated. Please sign the Major Events form in the upper right-hand corner and return it even if there are no changes.
